Dear Ms. Fuerst:

The analyses from the Galena and Treece areas of southeastern Kansas which were requested by you in a telephone conversation on May 10, 1983 are attached. This information has been provided to KDHE by the USGS. Locations of four (4) groundwater sampling sites are shown in red on the enclosed map labeled Figure 3. Locations of two (2) surface water sampling sites are shown on the map labeled Figure 4. Additional analyses are available for both Short and Tar Creeks in the "Water Resources Data for Kansas" publications for 1977 and 1979.

Sincerely,

DIVISION OF ENVIRONMENT

Mike Butler
